

TAWHIDUL ISLAM IFTY

Computer Science Student & Competitive Programmer

Email: itawhidul202@gmail.com
Phone: 01881131644

GitHub: github.com/thuhidul-islam313
Codeforces: Ifty (Rating: 1200+)

PROFESSIONAL SUMMARY

Highly motivated Computer Science and Engineering student with a strong foundation in algorithms, data structures, and problem-solving. Passionate competitive programmer with a 1200+ rating on Codeforces and active participation in inter-university contests. Adept at building practical software applications using C++ and object-oriented programming, with an expanding expertise in Artificial Intelligence, Machine Learning, and modern Web Development. Seeking a software engineering role to leverage analytical skills and contribute to impactful technological solutions.

EDUCATION

B.Sc. in Computer Science and Engineering (CSE)

2022 – 2026 (Expected)

[Insert University Name here]

- Focus Areas: Data Structures, Algorithms, OOP, Database Management Systems, Machine Learning.
- Active member of the university's Computer Club and Competitive Programming community.

TECHNICAL SKILLS

Languages	C++, C, HTML5, CSS3, JavaScript (Basic)
Core Concepts	Competitive Programming, Object-Oriented Programming (OOP), Data Structures, Algorithms
AI & Machine Learning	AI Fundamentals, Machine Learning Foundations, Data Analysis
Tools & Developer Platforms	Git, GitHub, VS Code, Code::Blocks, Linux CLI

TECHNICAL PROJECTS

Wizard Dragon Game

C++ & OOP

- Developed an interactive command-line/graphical 2D fantasy game implementing Object-Oriented Programming principles.
- Designed modular classes for game characters, custom movement physics, and real-time collision detection systems.
- Optimized memory management and state handling mechanisms to ensure stable and efficient performance.

Personal Portfolio Website

HTML & CSS

- Designed and deployed a responsive, clean, and interactive single-page portfolio application to showcase skills and projects.
- Structured components with robust navigation flows, smooth scrolling effects, and functional integrations like contact forms.

Console Calculator Application

C++

- Built a precise mathematical calculator handling standard arithmetic operations, recursive logic, and input parsing.
- Implemented error-handling protocols for division-by-zero and invalid syntax errors to maximize reliability.

ACHIEVEMENTS & CONTEST EXPERIENCE

- **Codeforces Rating (1200+):** Successfully solved numerous algorithmic and mathematical challenges, maintaining a competitive rank.
- **Inter-University Programming Contests:** Represented the university team in competitive hackathons and programming competitions, solving data structure and graph theory challenges under strict time constraints.

PUBLICATIONS & RESEARCH

[Insert Research Paper Title Here]

2026

Published in: [Journal / Conference Name]

- Conducted research focused on implementing modern algorithms/AI methods to address technical domain problems.

HOBBIES & INTERESTS

- **Problem Solving:** Dedicating leisure time to practicing advanced data structures and analytical puzzles.
- **Technical Writing:** Crafting educational blogs and system documentation to simplify complex computer science fields.
- **Traveling:** Exploring unique cultures, fostering adaptability, and expanding networking spheres.
